#### PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1c (DIA). The photographic analysis for this particular report was performed by the Production Center 1P1c.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

#### SUMMARY

The installation covers approximately 70 acres, is partly fenced, and is located at the southeast edge of Malin, 50 kilometers (km) southeast of Korosten and 72 km northeast of Zhitomir. The installation is road served, and the Korosten-Kiyev railroad passes approximately 2 km to the northeast.

The installation contains 22 buildings: one multistory administration building, four multistory barracks, a possible housing area, one

storage building, 16 support buildings including one possible vehicle maintenance building, and a guard tower. A possible ammunition storage area with an earth-covered bunker, an athletic field, and one, possibly two, small arms ranges are also within the installation.

#### DESCRIPTION OF INSTALLATION

##### Railroad Service

The double-track Korosten-Kiyev railroad passes about 2 km northeast of the installation.

##### Road Service

The installation has access to an all-weather road to Korosten and another road to Zhitomir.

##### Administrative and Troop Housing Area

Area D contains one square multistory administration building with an open courtyard, four multistory barracks, and nine support buildings, including a possible guard tower. This area also includes a section of possible housing along the northeast side.

##### General Storage Area

Area E contains one storage building and

seven support buildings, including one 65- by 35-foot possible vehicle maintenance building. The area appears to be fenced.

##### Ammunition Storage Area

Area F is a possible earth-covered bunker approximately 30 feet in diameter.

##### Athletic Field

The oval-shaped athletic field (K) is approximately 220 by 60 feet.

##### Small Arms Firing Ranges

Area L1 is an 850- by 70- to 90-foot small arms firing range.

Area L2 is a 90- by 40-foot small arms firing range.
